

SINCLAIR EQUIPMENT COMPANY
TURBO, EXTRO, SUPER, BRAVO, DURO, ECO & JUNIOR STRIPPER
SUGGESTED BLADE SELECTION

TURBO/EXTRO/SUPER STRIPPER

*Super Stripper uses 12" Blades Only

#10-4804 6"Rigid, #10-4803 8"Rigid Blade. Use these blades for difficult removal like, epoxy, rubber floors, sport surfaces, etc. Always position these blades to far left hand side of machine.

#10-4652 12"Rigid Blade, #10-4802 14"Rigid Blade. The standard blade for carpet, vinyl or adhesive removal, pre-cutting of the floor is needed.

#10-4651 12" Flexible Blade. For use with the Super Stripper on uneven concrete surfaces and some soft foam back carpet.

#10-4801 14" Flexible Blade. For use with the Turbo/Extro Stripper on uneven concrete surfaces and some soft foam back carpet.

#10-4651D 12" Self-Dicing Blade. For use with the Super Stripper on carpet, rubber or vinyl. A real time saver, on pre-cutting necessary since blade will cut strips with knife edged sides.

#10-4801D 14"Self-Dicing Blade. For use on carpet, rubber or vinyl. A real time saver, on pre-cutting necessary since blade will cut strips with knife edged sides.

#10-4651T 12"Tile Blade. For use on VAT and VCT tile. Prevents tile from jamming in between blade and blade holder. A must for tile removal to protect blade holder.

#10-4807 14"X 5"Ceramic/Parquet Blade. Ideal for removal for ceramic tile, marble, parquet, and other wood floors. Precutting needed for plank floors.

#10-4809 Special Ceramic/Parquet Blade. This ¼" thick heavy duty blade is designed especially for the ceramic tile and hardwood/parquet removal applications. The 14" wide blade extends out nearly 4" and is designed at a specific angle to work more efficiently in cutting and lifting of thick materials. Best suited for the long run, constant use in tile/wood applications for extended life and performance.

BRAVO/DURO/ECO STRIPPER

#10-4906 8"Rigid Blade. Our standard blade for removal of vinyl, carpet, adhesive, etc. Bevel edge of blade should be up for concrete and down for wood sub-surfaces. Precutting of carpet and vinyl needed.

#10-4904 8"Flexible Blade. Same as above, yet for uneven concrete surfaces and some soft foam back carpet.

#10-4907T 8"Tile Blade. For use on VAT and VCT tile. Prevents tile from jamming in between blade and blade holder. A must for tile removal to protect blade holder.

#10-4909 8"Razor Blade Attachment. An adapter to secure razor blades for removal of adhesives, paints and thin films. Inexpensive and an excellent choice for complete clean up after floor covering removal. **#11-525 8" Razor blades for Razor Blade Attachment.**

#10-4903 8"X 5"Rigid Blade. Ideal for hard to reach areas such as toe kicks, under radiators, etc. Also used for clean up of small areas of parquet, ceramic, etc.

#10-4906D 8"X 2.5" Self-Dicing Blade. For use on carpet, rubber or vinyl. A real time saver, on pre-cutting necessary since blade will cut strips with knife edged sides.

JUNIOR STRIPPER

#10-4641 4.5" Rigid Blade #10-4642 5.5" Rigid Blade #10-4643 8" Rigid Blade

The standard blade for removal, of cushion back and soft vinyls on wood or concrete surfaces, wallpaper, paint and abatement removal.

#10-4643F 8" Flexible Blade - Same as above, yet for uneven surfaces.

NOTE: All jobs can vary in difficulty of removal. Whatever blade you are using it may be necessary to take a smaller bite in removal so it is less stressful on the operator as well as the machine. If you have any questions on blade selection or choice of machine, please do not hesitate to call Sinclair Equipment Company or your nearest distributor.
